9. Revegetation	☒	☒	☐

Bond Renewal Date: 12-01-2011 **Bond Amount:** $124,000 **Permit fee** is up to date

Purpose of Inspection: Routine annual Inspection. This site was inspected as a Large mine site on 04/21/2006

Inspection Summary: Mine site had a locked gate on the entrance road, both shaft and portal were secured. No erosional problems were noted. Most of ground disturbance has been reclaimed, including both regrading and revegetation. Revegetation is successful, dominately grasses but also includes biodiversity and locally established conifers. Attached photograph document remaining structures.

Conclusions and Recommendations: OGM to continue annual inspections and monitor the site when in the area.
